MODIFICATIONS TO ISSUES MATRIX

In their Opening and Reply Briefs, parties make the following modifications to positions taken in the all parties issues matrix.

1. Issue 5

- a. CLCs eliminate their request for the card-at-a-time option. (Opening Brief, page 35.)
- b. New Edge defers request for implementation of shelf-at-a-time to a later date (e.g., six months after the implementation of line sharing on June 6, 2000). (Reply Brief, page 9.)

2. Issue 7

- a. AT&T and MCI WorldCom waive proposed ordering or billing requirements to third parties in Sections XIV (C), 2, 4, 5, and Section XIV (J) (1), (N) (1), and (O) of the AT&T/MCI proposed interconnection agreement for up to six months from the initial determination in this proceeding. (Opening Brief, page 16.)
- b. AT&T/MCI agree to delete the language of the pre-ordering, maintenance, and splitter sections of the AT&T/MCI proposed contract and adopt, for the interim period, the equivalent language proposed by the CLCs. Specifically, AT&T and MCI delete paragraphs XIV J, XIV N, and XIV H and adopt joint petitioners Section VIII, Section X and joint petitioners price of a splitter in Table 1 at page 26 (Exhibit 13). (Reply Brief, page 9.)

3. Issue 10

CLCs agree that ILECs may have an additional day for provisioning loops not requiring deconditioning. Thus, ILECs may have two days to provision loops that do not require deconditioning, and may have four days to provision loops that require deconditioning. (Opening Brief, page 45.)

4. Issue 11

CLCs agree to give ILECs an additional day for LST. Therefore, ILEC intervals for performing an LST would be two days under the CLCs modified proposal. (CLC Opening Brief, page 46.)

5. Issue 19

CLCs withdraw their request that the line sharing amendment include the provision of interoffice transport. (CLC Opening Brief, page 52.)

6. Issue 37

New Edge agrees to provide confidential, non-binding forecasts to assist ILECs in their planning. (Reply Brief, page 9.)
